

## Bilious vomiting drive through contrast study flowchart

Refer EARLY to KIDS NTS for advice - 0300 200 1100

Flowchart for neonates with bilious vomiting (>35 weeks and <48hrs old; not ventilated and no requirement for CPAP/High flow; no other GI abnormalities).

Referral Hours: 9am - 10pm

STEP 1

Referral received by Surgical Registrar and baby requires a contrast study

Surgical Registrar to make online tertiary bed request

If capacity issues at BCH, confirm backup bed is available

STEP 2

- Neonatal Consultant to make KIDS NTS referral.

- KIDS NTS to create BCH hospital number and contact Surgical Registrar.
- Surgical Registrar to book contrast study with request form and leave in radiology.

**>** 

KIDS NTS liases with BCH radiologist about the convenience to perform a drive through + provides direct phone contact number

STEP 3

KIDS NTS CAN attend immediately

KIDS NTS to inform Surgical Registrar

Dispatch KIDS NTS to referring hospital to retrieve
