CONSULTANT £250

"Everything was perfect. Learning needs of the attendees were targeted and made the practical sessions so useful for clinical practice. Particularly grateful of the fact that groups were kept to max of 4 people which maximised the hands on experience. Great faculty, so knowledgeable and very approachable! Thank you for a great day which will definitely improve my practice and hopefully enhance patient experience!"

"I think the theory and practical sessions were well timed and appropriate length. Right balance of theory and practice. Excellent day"

"Really enjoyed the course and the practical sessions were brilliant. Supportive learning environment. Really great course"

"Would definitely recommend this course for staff who are unfamiliar with using USG, for those who want to improve their technique and success rate and for those experienced staff that need a refresher"

"The course format was good. Overall a very good course. Keep it up!"

CANDIDATE FEEDBACK

"Kind and helpful faculty members. Patient with novice like me. Tips provided from experienced tutors. Thank you"

"I wanted to let you know that I am successfully utilising the skills learnt during the course in practice and the positive feedback that I have received from both my colleagues and parents of the patients.

I have been spreading the word about how fabulous the course was!"

"I liked the fact that it was almost entirely hands-on. And I'm happy that it gave ample time to practise.

"Can't find faults. Everything was amazing. Got plenty of practice time. Multiple models and phantoms were useful to practice on."

"Excellent course overall and fab to have so much opportunity to practice. Really enjoyed."
